PROPOSED BRT ROUTE

Needs some connection at 7 & 10 to small road, but not major boul too claustrophobic

I like the angled road on this option

Add angled road connection

Park Road
This Road Cars should be 2 way only
NOT STAY
No PARKING
150th STREET

Where this connection location of Potomac Ave. Adds more greenspace.

Shouldn't we Think - Less cars/traffic Travelling use of The Metro

Some walkable breaks would be desirable here

Right location for BRT.

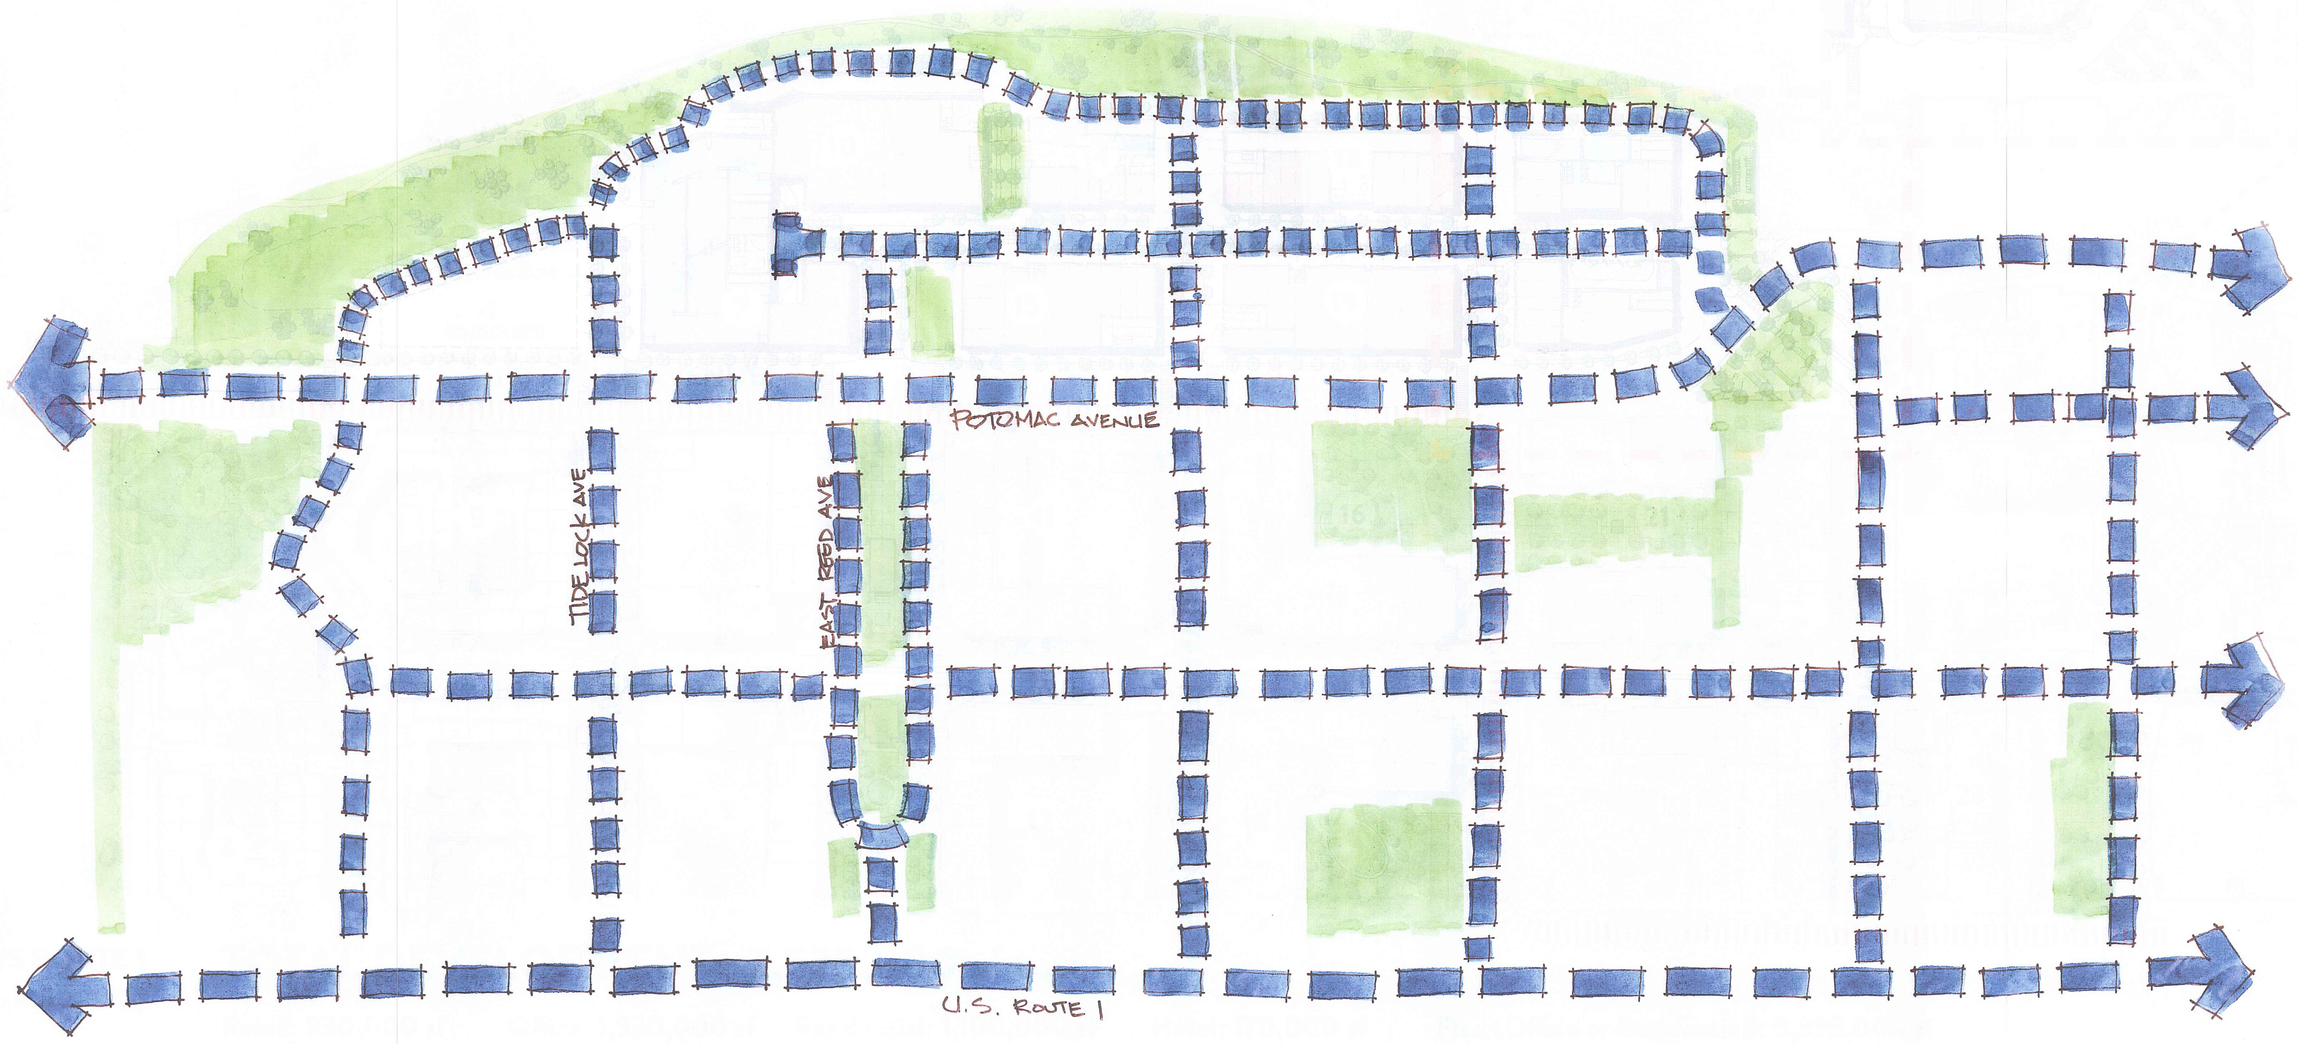
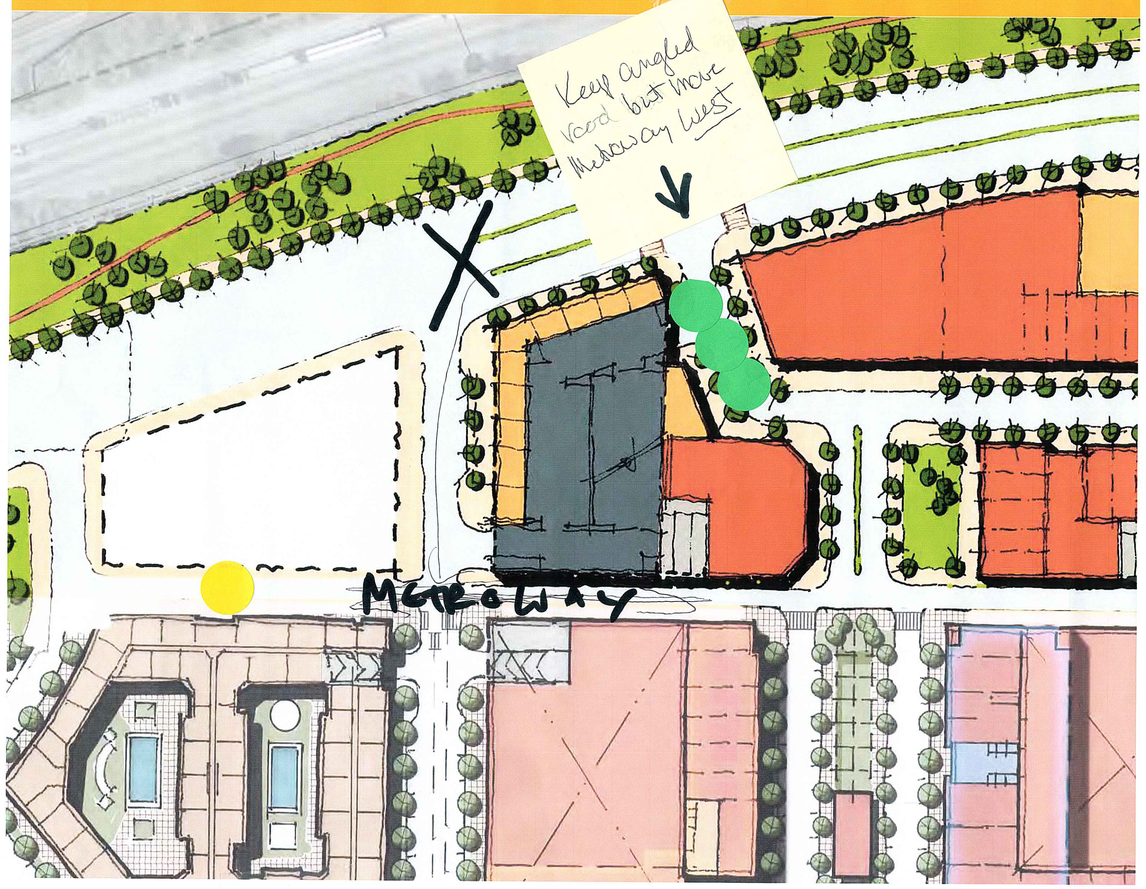
CHARRETTE OPTION TWO: CONNECTIVITY AND OPEN SPACE



STUDY AREA A: OPTIONS

Too much breaking up s/t orchard garage

CHARRETTE OPTION 1



like through fare of Potomac Ave (Continuity of a parkway")

Too much separation b/w Park, Potomac Ave. + locating Ave makes park too small

Like this option but keep the angled road connection

Reed Vista

CHARRETTE OPTION 2

like school drop off area & access to park for kids

like Reed Ave leading left to park/vista

Prefer overall layout, but parking garage may to be both up in some way

CHARRETTE OPTION 2C

STUDY AREA C: POTOMAC AVENUE LOCATION

Metro north is better for Phase 1 retail - right?

Where are the fronts of buildings here?

Relatively similar park cross section = boring

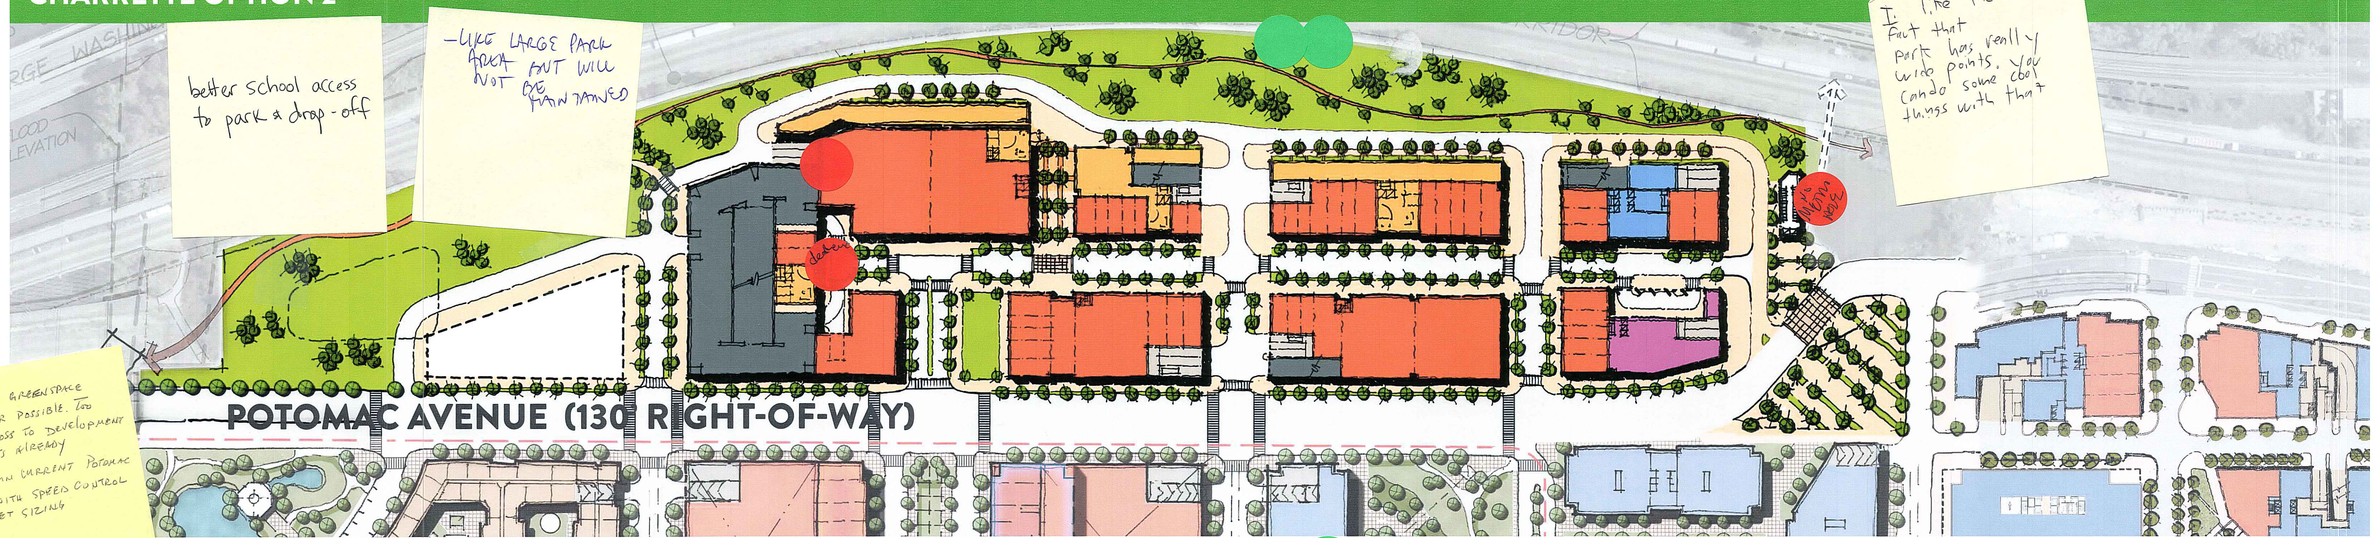
Reed Ave lead to vista on park (Good)

CHARRETTE OPTION 1

- PARK FEELS MORE LIKE THE CONTINUATION OF EXISTING.
- LIKE THE PLEDRO PLAZA EASY TO RECOGNIZE

like wider park but also like Potomac Ave thruway along park

CHARRETTE OPTION 2



better school access to park & drop-off

-LIKE LARGE PARK AREA BUT WILL NOT BE PROGRAMMED

I like the fact that park has wide points, you can do some cool things with that

- MAINTAIN GREENSPACE WHEREVER POSSIBLE. TOO MUCH LOSS TO DEVELOPMENT PROJECTS ALREADY
- MAINTAIN CURRENT POTOMAC AVE WITH SPEED CONTROL STREET SIZING

STUDY AREA C: STREET SECTIONS
