RE: Van Dorn Street railroad yard

November 27, 2015

Yon Lambert
Director – Transportation & Environmental Services Department
City of Alexandria
301 King Street Rm. 4100
Alexandria, VA 22314

Dear Mr. Lambert:

This refers to Mayor Euille's June 3rd meeting with Norfolk Southern executives, and his request for a second community meeting to convey information about our Thoroughbred Bulk Transfer "TBT" operation.

Our Corporate Communications team is finalizing presentation materials for a Wednesday December 9 meeting with representatives from the Cameron Station, Summers Grove, and Cameron Park Towne communities. We have reserved a private meeting room with space for thirty (30) participants at London Curry House restaurant, located at 191 Somerville Street, not far from our railroad yard.

We would like to start the meeting at 7:00PM with informal conversation before Susan Terpay presents a review of the current TBT operation and an overview of our truck load and track reconfiguration project to increase the facility safety and efficiency.

We plan to have Baird Spicuzza from our Industrial Products group assist Susan in the presentation and responses to any questions the community representatives may have.

I'll work with Bill and Khoa to ensure we reach out to the right folks in each of the community associations, and that key City officials are aware of the meeting.

We thank your staff and look forward to this opportunity to expand our existing lines of communication with the neighborhoods near the NS Van Dorn Street railroad yard.
